

ODP 1772-77
2 September 1977

MEMORANDUM FOR: Acting Deputy Director for Administration
FROM : [REDACTED]
Acting Director of Data Processing
SUBJECT : ODP Report for Week Ending 2 September 1977

Field Data Transmission Working Group

The urgency of reducing personnel overseas, the desire for a "recordless" field station, and the problem of providing audit trails for automated field stations was discussed by the Group this week. [REDACTED] asked that each Office provide an estimate or commitment of resources needed to formulate plans and objectives for the Working Group. ODP has committed one analyst to work on the Electronic Time and Attendance Reporting (ETAR) pilot project. [REDACTED]

IBM 360/195 Declared Excess

The IBM 360/195 console, memory, and channels have been declared excess to GSA with a release date of 30 January 1978. Inquiries have been received regarding the 360/195 computer from Navy and ERDA. Logistics is investigating having GSA purchase the 360/195 using the ADP Fund. [REDACTED]

Proposed New Sensitive Compartmented Information (SCI) Category

ODP responded to the DDA request for the number of ODP personnel who would qualify for a proposed new SCI category. This category would be for individuals that have a need for being exposed to compartmented data but do not have a need for actual use of the data. Couriers and Data Processing personnel are some of the employee types that may be affected. [REDACTED]

Number of SCI Billets

ODP has had discussions with the Special Security Center, OS, concerning the freezing of the number of billets for certain SCI categories at their present numerical level. ODP

will need an increase in the number of billets for various SCI categories because of an increasing T/O, SAFE development, and possible expansion of the CAMS system. Requests to COMIREX and SIGINT Committees explaining our need for additional billets may be required. [REDACTED]

STATINTL

Support to Office of Finance

FRS - Financial Resource System. We completed our support to the OMB budget exercise with the production of final reports for the Office of the Comptroller on 29 August. These reports will accompany the Agency's FY-79 submission to OMB, which is due in mid-September. [REDACTED]

STATINTL

SAFE

In anticipation of a favorable response to a memorandum from the Director of DIA to the DCI recommending a joint SAFE/ADISS Program, the SAFE and ADISS Project Staffs are actively planning for the joint effort. This planning will include preparation of a draft memorandum of understanding and draft management plan for the joint program.

Best and Final Offers were received and evaluated in response to the SAFE Design Competition RFP. A memorandum to the Source Selection Authority is being prepared recommending selection of two contractors for the Design Competition Phase.

The Booz-Allen Applied Research SAFE/ADISS Commonality Study will conclude with their submission of a written report in September 1977. [REDACTED]

STATINTL

ADSTAR

The evaluation of the ADSTAR proposals is continuing on schedule. The Source Evaluation Board completed its technical and management evaluations during a meeting [REDACTED] building on Sunday, 28 August 1977.

STATINTL

On Tuesday, 30 August, the Source Evaluation Board briefed the Source Selection Board on the status of the ADSTAR proposal evaluations. The Source Selection Board was advised that a final recommendation cannot be made at this time. Cost evaluations are currently in progress and a notification for Best and Final Offers must be forwarded to each of the companies under consideration. A final recommendation to the Source Selection Board is scheduled for mid-September 1977.

STATINTL The ADSTAR Project Manager is scheduled to take part in a briefing for the Deputy Director for Intelligence (DDI) and the Comptroller. The briefing is scheduled for Friday, 2 September 1977. The purpose of the briefing is to provide information on the status of the ADSTAR Project. [REDACTED]

RAPID

The contractor visited the Agency on 29 August 1977 and submitted three items to the government: 1) a claim for \$1.8M, 2) a proposal for \$1.3M to continue RAPID development with minimal to no government participation or approval authority until project completion, and 3) a proposal for \$750K to deliver a much scaled down RAPID. All of these funds, according to the contractor, are in addition to the total RAPID contract of \$1.7M. The contractor requested and received separate meetings with SPS/ODP and PD/OL, and a combined meeting with ODP, OL, [REDACTED]

STATSPEC

STATSPEC
STATSPEC Based on these meeting, SPS and PD believe there is no apparent basis for any claim. The contractor's "evidence," however, is being thoroughly reviewed, as well as all Agency RAPID Project files. The proposal for minimal government participation is unacceptable to ODP as a valid means for procuring an ADP system. A scaled down RAPID also is unacceptable as it does not meet [REDACTED] current functional requirements. The proposal, however, is receiving thorough review [REDACTED] to determine its value in [REDACTED] operations. ODP, ODP, [REDACTED] coordination meetings are taking place in preparation for sending a formal response to the contractor. [REDACTED]

Training

STATINTL A two day course, GIM II User Language, was attended by 15 students. [REDACTED]
